## Combined Declaration for Patent Application and Power of Attorney

As a below-named inventor, I hereby declare that my residence, post office address, and citizenship are as stated below next to my name and that I believe that I am the original, first, and sole inventor [if only one name is listed below] or an original, first, and joint inventor [if plural names are listed below] of the subject matter which is claimed and for which a patent is sought on the invention, the specification of which is attached hereto and which has the following title:

"GENERAL PURPOSE COMPRESSION FOR VIDEO IMAGES (RHN)"

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment specifically referred to in the oath or declaration. I acknowledge a duty to disclose information which is material to the examination of this application in accordance with Title 37, Code of Federal Regulations, Section 1.56(a).

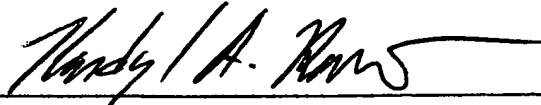

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Title 18, United States Code, Section 1001, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

I hereby claim the benefit under Title 35, United States Code, § 119(e) United States provisional patent application Serial No. 60/113,276 filed on December 23, 1998.

I hereby appoint Kendyl A. Román as my attorney with full power of substitution to prosecute this application and transact all business in the Patent and Trademark Office in connection therewith.

Please send correspondence and make telephone calls to the First Inventor below.

The figure consists of 12 diagrams arranged in two rows of six. Each diagram shows a horizontal line with various shapes (circles, squares, triangles) and arrows indicating movement or flow. The diagrams are labeled with numbers 1 through 12, and some have additional labels like 'a', 'b', 'c', 'd', 'e', 'f'.

- Diagram 1: A horizontal line with a circle at the left end and a square at the right end. An arrow points from the circle to the square.
- Diagram 2: A horizontal line with a circle at the left end and a square at the right end. An arrow points from the circle to the square.
- Diagram 3: A horizontal line with a circle at the left end and a square at the right end. An arrow points from the circle to the square.
- Diagram 4: A horizontal line with a circle at the left end and a square at the right end. An arrow points from the circle to the square.
- Diagram 5: A horizontal line with a circle at the left end and a square at the right end. An arrow points from the circle to the square.
- Diagram 6: A horizontal line with a circle at the left end and a square at the right end. An arrow points from the circle to the square.
- Diagram 7: A horizontal line with a circle at the left end and a square at the right end. An arrow points from the circle to the square.
- Diagram 8: A horizontal line with a circle at the left end and a square at the right end. An arrow points from the circle to the square.
- Diagram 9: A horizontal line with a circle at the left end and a square at the right end. An arrow points from the circle to the square.
- Diagram 10: A horizontal line with a circle at the left end and a square at the right end. An arrow points from the circle to the square.
- Diagram 11: A horizontal line with a circle at the left end and a square at the right end. An arrow points from the circle to the square.
- Diagram 12: A horizontal line with a circle at the left end and a square at the right end. An arrow points from the circle to the square.
